

DRAGONWAVE AND CLEARWIRE PRESENTS 4G WIRELESS BACKHAUL SOLUTIONS AT 4G WORLD 2009

WHO:

Dr. John Saw, Clearwire's Chief Technology Officer
Dr. Alan Solheim, DragonWave's VP of Product Management

WHAT:

At 4G World 2009, Clearwire and DragonWave will be presenting at the 4G Network Backhaul Summit, session one entitled "4G Wireless Backhaul Solutions". In this presentation, these wireless industry experts will provide an overview of Clearwire's backhaul solution followed by an interactive conversation about the challenges and opportunities encountered when designing and implementing the world's largest 4G backhaul network.

WHEN:

Tuesday, September 15, 2:30pm — 3:30pm

WHERE:

First floor of the West Building at McCormick, CHICAGO, Illinois
Room W-183C - signs will be posted directing attendees to the session
4G Network Backhaul Summit

ADDITIONAL DETAILS:

DragonWave will be exhibiting and available for meetings. To learn more about the Horizon family of packet microwave solutions, with the lowest cost of ownership for next generation wireless backhaul, request an appointment or visit our booth #617.

About DragonWave

DragonWave® is a leading provider of high-capacity packet microwave radio systems used in emerging IP networks. DragonWave designs, develops, and markets carrier-grade packet microwave radio frequency networking equipment that transmit broadband voice, video and other data. DragonWave's products, which are based on a native Ethernet platform, function as a wireless extension to an existing fibre-optic core telecommunications network. The principal application for DragonWave's products is the backhaul function in a wireless communications network. Additional applications for DragonWave's products include point-to-point transport in private networks, including municipal and enterprise networks. DragonWave's corporate headquarters is located in Ottawa, Ontario, with sales locations in Europe, Middle East and North America. The company's Web site is <http://www.dragonwaveinc.com>
